

Saroosh Javed

Full Stack Developer & Mobile Application Developer

saroosh2005@gmail.com | +92 3120044419 | www.linkedin.com/in/saroosh-javed-670414298 | <https://github.com/Saroosh05>

Profile

Full-Stack and Mobile Developer combining web, Android, and applied AI. Experience spans EBiz Logics, Odoo development at Ustadam, and teaching Database Management at UET Lahore. Builds production-ready products with React, Next.js, .NET, Kotlin, and Python, including RAG SaaS, computer-vision crop diagnosis, and from-scratch database systems, with a focus on clean architecture and measurable results.

Education

Bachelor of Computer Science	2023 – 2027 (Current)
University of Engineering and Technology, Lahore, Pakistan	
Intermediate in Computer Science	2021-2023
Kinnaird College For Women, Lahore, Pakistan	
Matric	2019-2021
Govt. Model Girls High School, Lahore, Pakistan	
Early Education	
Lahore Grammar School, Lahore, Pakistan	

Technical Skills

- **Languages:** C, C++, C#, Python, JavaScript, SQL, Kotlin, PHP, HTML, CSS
- **Frontend Development:** HTML5, CSS3, Tailwind CSS, React.js, WinForms, Redux, Bootstrap
- **Backend Development:** .NET Core, ASP.NET, Node.js, Express.js, RESTful APIs, Odoo, Firebase
- **Database Management:** SQL, MongoDB, PostgreSQL, SharedPreferences, Firebase, Supabase
- **AI and Automation:** Computer Vision, CNNs, Image Classification, Image Segmentation, OpenCV, U-Net, TensorFlow/Keras, LLMs, Generative AI, Prompt Engineering, AI API Integration, RAG, Chatbot Development, AI Automation, Model Training & Evaluation
- **Concepts:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Debugging, Problem Solving
- **Tools and Others:** Git & GitHub, GitLab, Visual Studio, VS Code, Android Studio, Odoo Framework, Jira, Vercel

Professional Experience

Teaching Assistant (Database Management)	Jan 2025 - June 2025
University of Engineering and Technology, Lahore, Pakistan	
Odoo Developer	May 2024 – Aug 2024
Ustadam - University of Engineering and Technology, Lahore, Pakistan	
Web Developer	May 2023 - May 2024
EBiz Logics, Lahore, Pakistan	

Research Experience and Manuscripts

Load-Balanced Parallel Information Retrieval Using Pthreads, OpenMP, and MPI

Saroosh Javed, Waqas Ali

Unpublished Research Manuscript, 2026

- Designed and evaluated parallel information-retrieval pipelines using Pthreads, OpenMP, MPI, and hybrid MPI+OpenMP.
- Applied Longest Processing Time (LPT) scheduling and bucket-partitioned merging to address load imbalance and synchronization overhead; achieved up to $21.50\times$ speedup with Pthreads.

AI-Based Crop Disease Prediction for Farmers

Saroosh Javed, Muhammad Waseem, Muhammad Kamran

Unpublished Research Manuscript, 2025

- Developed a custom CNN-based model for multi-crop disease classification across wheat, rice, and maize.
- Merged datasets from multiple sources and applied normalization, data augmentation, dropout, and batch normalization; achieved 85.28% test accuracy.

Projects

Conversa — AI Chatbot Builder | Full-Stack SaaS

- **Stack:** Next.js, React, TypeScript, Tailwind, Supabase (Auth, Postgres, pgvector), Payload CMS, Python, OpenAI, RAG, REST APIs, Vercel.
- **Full-stack RAG chatbot SaaS:** document upload, chunk review before publish, hybrid search, and an embeddable widget.

AutoSlides — AI Presentation Generator | Full-Stack Web App

- **Stack:** React.js, Flask, PyPDF2, Axios, OpenAI, Google Gemini Pro.
- **AI-powered slide generator:** research proposal PDFs to professional slides, with key-section extraction (Abstract, Methodology, Results) and live status tracking.

Crop Disease Prediction — Leaf Diagnosis for Farmers | Computer Vision

- **Stack:** Python, TensorFlow/Keras, U-Net, CNN, Flask.
- **End-to-end crop diagnosis pipeline:** detection, U-Net segmentation, 9-class wheat/rice/maize CNN (~85% test accuracy), and a Flask UI for leaf upload.

Home Chores Automation — Family Task Manager | Android App

- **Stack:** Kotlin, Android, notifications, background workers.
- **Family chore manager:** auth, invite-code groups, assignable tasks, calendar, points, and reminder notifications.

EduGuardian — Anti-Cheating Exam System | Browser Security

- **Stack:** HTML, CSS, JavaScript, Chrome Extension APIs, Python native messaging.
- **Real-time Colab exam lock:** tab lockdown, blocked copy/paste and extra windows, unauthorized-app closing, and activity logging through a Python host.

Custom Graph Database (GDBMS) — From-Scratch DBMS | Databases

- **Stack:** Python, binary files, B+ trees, Cypher-like parser, Tkinter, NetworkX.
- **High-performance graph store:** low-level binary storage, B+ tree indexes, Cypher-style queries, ACID-style transactions, and graph visualization.

MiniMind OS — Child-Friendly OS Prototype | Systems Simulation

- **Stack:** Python, Tkinter.
- **Educational OS for ages 2–8:** process, memory, and scheduling simulation, sandboxed files, parental time limits, plus drawing, stories, music, and puzzles.

Google Replica — Offline Search Platform | Desktop Database App

- **Stack:** C#, WinForms, SQL Server, layered BL/DL, OOP.
- **Google-like desktop client:** accounts, search over user-created sites, history, downloads, favorites, and email (inbox, sent, drafts).

Employee Management System — Role-Based Web Portal | ASP.NET Web App

- **Stack:** ASP.NET Core Razor Pages, C#, SQL Server, layered BL/DL.
- **SQL-backed staff portal:** sign-in/sign-up, session auth, role-based users, and CRUD for assigned records.

TriChat — WhatsApp-like Messenger | Front-End + DSA

- **Stack:** HTML, CSS, JavaScript, localStorage (graph, queue, tree, trie, hash table).
- **Offline-first chat client:** 1:1 and group chat, contact graphs, message queues, reply trees, and trie-based search with no backend database.

Certifications & Achievements

- **Odoo Web Development:** Ustadam, UET Main Campus
- **Database & SQL:** Great Learning
- **MongoDB Certification:** Great Learning
- **ITEC 2024:** Quiz Competition Participant
- **Codex Competition:** Problem Solving Competition

Additional Information

- **Languages:** English, Urdu.
